

Plantation activities is being carried on in the presence of Teachers , Non- Taching Staff and students organised by the NSS on 14th July ,2017 in connection with the observance of ' Earth Day' in the College campus Ground.

The NSS, alike every year, made an extensive programme for plantation in the College ground in and around the Campus of the College. They have arranged to distribute the saplings of Mango Tree to the students and community people and appeal to nurture that very sapling in the days to come as a symbol of remembrance in future. This programme is held on 14th July .2017.

More than 100 saplings have distributed on that occasion as well as planted in and around the campus.

A plant is being rooted by the Principal in the College Campus on the 'World Environment Day'

A glimpse captured of that very activities
